Re: Notification of Adelphia Gateway's Aerial Monitoring and Preparations for Operations

Dear «First_Name» «Last_Name»:

On behalf of Adelphia Gateway, LLC, I am writing to update you on the Adelphia Gateway, LLC's project progression* in your area. As construction nears completion at most sites in the South Zone of the pipeline right-of-way, the project will move into the next phase to prepare the pipeline for the transportation of natural gas.

Before a pipeline is converted to natural gas transportation, it is rigorously tested and inspected to ensure it meets industry and regulatory requirements set by the U.S. Department of Transportation Pipeline and Hazardous Materials Safety Administration. In the next few weeks, Adelphia Gateway will conduct multiple on-site ground assessments, as well as aerial monitoring. You may notice a helicopter flying at low altitudes along the project right-of-way to confirm the integrity of the pipeline.

At Adelphia Gateway, the safety of our employees and the community is our top priority. We are committed to maintaining the quality and integrity of the pipeline. For more information about Adelphia Gateway's construction, operations and maintenance activities, please visit our website AdelphiaGateway.com/pipeline-safety/construction-operations-and-maintenance/

Please know every effort is being made to mitigate and minimize these temporary impacts to the surrounding area as the pipeline is placed into service. Thank you for your continued patience and understanding.

Should you have any questions regarding this work or the Adelphia Gateway project, please contact our hotline at 1-800-483-3179. If you believe you have an emergency, please call 911 or 1-800-747-3375 for 24/7 response.

Best Regards,
Ginger P. Richman

President
