

FREON[®]APPLIANCES INFORMATION - Refrigerators, Freezers, Air-Conditioners, Dehumidifiers

The Clean Air Act of 1990 requires recapture, recycling, and safe disposal of chlorofluorocarbons (CFCs) and hydrochlorofluorocarbons (HCFCs) used in air conditioners, refrigerators, and freezers as coolant. Under the Act, no one may accept an item containing CFCs and HCFCs for recycling or disposal unless the Freon[®] contained within it is properly removed and the owner/hauler/appliance company can show proof of proper removal. It is also unlawful for any person to knowingly release or vent CFCs or HCFCs into the air. The EPA requires certifications for all technicians removing Freon[®] as of 11/14/94. For more information, call the EPA's Stratospheric Protection Hotline at 1-800-296-1996.

OPTIONS:

- 1.) **PECO Customers** call 1-888-573-2672 to schedule pickup. (*Refrigerator must work*)
PP&L Customers go to www.ppelectricsavings.com/ppl/appliance/recycling/ (*Refrigerator must work*)
- 2.) Contact the company from whom you purchased the new appliance. Many will take back the old appliance and remove the Freon[®] (fees may be charged).
- 3.) Check with your hauler. Some haulers will take appliances containing Freon[®] from their customers, remove the Freon[®] and recycle the appliance for a lower fee than those charged by appliance centers. Others will only remove appliances with certification that the Freon[®] has been removed. Call for more information.
