Re: Water Availability
1001 S. Walnut Street Subdivision
Westtown Township, Chester County

Dear Mr. Russella:

This letter will serve as confirmation that the above referenced property is situated within Aqua Pennsylvania Inc.'s ("Aqua") service territory. Service will be provided in accordance with Aqua's Rules and Regulations.

This proposed two lot subdivision will require a main extension(s) for service to be available to lot two of the subdivision. Aqua currently does not have a water main that extends along Oakbourne Road to serve this lot. An 8-inch main extension will be required along Oakbourne Road to the mid-point lot two to obtain service. A main extension plan utilizing Aqua plan standards must be prepared and submitted to this office for review and approval. Following approval of the main extension design and plan, construction of the main extension project would be completed by the Builder under our standard Builder's Extension Agreement.

Flow data information may be obtained from our Production Department so that you may determine the adequacy of our supply for your project needs. You may email a request to SEPAflowrequest@aquaamerica.com. Your request must include the address, street, cross street and municipality and all pertinent contact information.

This availability letter is only valid for one year from the date first written above.

If I can be of further assistance, you may contact me at (610) 645-1105.

Sincerely,

David C McIntyre
