RE: Capacity Determination
Proposed 2-lot residential subdivision
1001 S. Walnut Street
Westtown Township, Chester County, PA

Dear Mr. DiCecco:

This letter certifies that there is sufficient capacity in the West Goshen Sewer Authority collection, conveyance, and treatment system at the current time to accept flows from the above-referenced project. Currently, no overload exists and the proposed 250 additional gallons per day will not create a hydraulic, organic, or 5-year projected overload.

Thank you and please do not hesitate to contact me if in need of anything further.

Sincerely,

Michael Moffa
Wastewater Superintendent
